I was intrigued and amazed about the statistics that show how many men and women are incarcerated and punished. This information allows me to see how what not to do. If I do make these mistake(s) (Picking up that gun for instance) I know the consequences and the repercussions behind my decisions. The death penalty is severe. I don't want to die in prison. So I'll use the information wisely in seeking the truth. Also, I would like to add the spelling needs work. The year(s) should have been you in certain cases. For the most part I was impressed and overwhelmed by the book. Look, listen, and learn and you find something interesting and informing for you and me. God has a plan. His plan doesn't contain violence or murder. His plan is full of peace, joy, and happiness. So one must seek and follow the righteous path of God. Thanks for the information and articles. PEACE + LOVE
