

JCS

After reading If you Believe in God you don't Belong in prison. I instantly evaluated my life and where I went wrong. It made me realize how little faith I had and how many times I turned my back on God. But every time I did right God was there for me. God never turned his back on me.

My attitude and thinking have been negative lately so to change that I've been using positive affirmations and scripture from the book. I read my bible more every day now and I'm becoming more at peace with my self.

I use to worry alot now I know when I'm worrying that means I don't believe in God. So now when I pray and ask for a job once I'm released I don't worry anymore I know God is going to provide for me. and I don't need all the best designer stuff to be happy. God will provide what I need.

God will continue to bless me and my family and provide for us. and I know if I do the right thing and believe in God for 7 years really believe in God this time. I will be a changed happy man blessed with a happy family, a education and a career. I'm ready to be a real man and take care of my responsibilities by believing in God and being faithful.

Sincerely

Sildock
